	Platform Capacity 225kg
	Platform Capacity 2 Persons

KEY CHARACTERISTICS

DESCRIPTION

The Niftylift Height Rider 17N is a narrow boom lift offering a working height of 17.2 metres. Access platform rotation allows exceptional control and ease in positioning for difficult access jobs. The HR17 has a narrow base and outstanding outreach making it ideal for tasks where floor space is limited. Bi-energy access platforms are more fuel efficient and economically friendly for work at height both indoors and out - this Nifty Lift boom has non-marking tyres and features the latest safety systems.

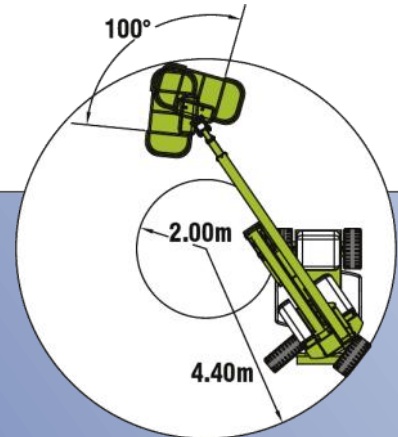

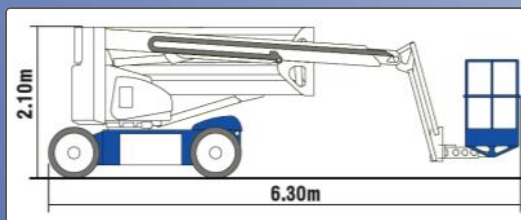

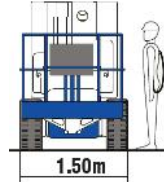

FEATURES

- Non Marking Tyres
